

## MULTIPROOF LWC

Integral Waterproofing Solution for Concrete

### MULTIPROOF LWC

MULTIPROOF LWC is based on processed modified Ligno Sulphonates and additives which is supplied as pinkish coloured liquid easily dispersible in water. MULTIPROOF LWC ensures waterproofing by increasing the workability of concrete by reducing the water content thereby resulting in an impermeable waterproof concrete.

#### Advantages of MULTIPROOF LWC-

- ☑ Improves the workability of concrete
- ☑ Prevents crack formation due to reduction in shrinkage
- ☑ Increase durability of concrete
- ☑ Reduces permeability through the depth of concrete
- ☑ Provides a better surface finish
- ☑ Prevents bleeding and segregation
- ☑ Strength of concrete is maintained

#### Application Areas-

- Basements areas and Roof slabs of the structure
  - Terraces, Balconies and washroom structures
  - Water exposed areas and retaining structures
  - Water Tanks, Swimming Pools, Sewage tanks and other moisture exposed areas
-

---

## Direction for Use-

MULTIPROOF LWC should be added with the measured gauge water. It should not be added directly to the dry cement. Shake well before use.

## Dosage-

200 mL per 50 KG bag of Cement.

## Packing Available-

Supplied in 200 mL, 1 L, 5 L, 10 L, 20 L and 200 L packing
